Your Submitted Press Release

Castries, St. Lucia - 23-May-2025 - LAXMINT, a hybrid technology and investment company, has officially launched with a mission to unlock the Artisanal and Small-scale Gold Mining (ASGM) sector through transparent, ethical, and scalable working capital solutions. Combining Future Technologies like Artificial Intelligence, Machine Learning, Digital Assets together with Real World Assets (RWA), and ESG tracking, [LAXMINT](#) aims to bridge real gold mining production and digital assets capital markets—creating an entirely new category of investable assets, leveraging liquidity.

Artisanal Small-Scale Gold Mining contributes over 20% of the world's gold production, yet remains critically ignored, particularly lacking access to working capital, finance, machinery, technology and environmental accountability.

[LAXMINT](#) offers a complete solution for these problems by providing access to working capital, modern finance, eco-friendly equipment & machinery, and smart technologies to Artisanal Small-Scale Gold Miners.

“LAXMINT believes in transforming Real World Assets (RWAs) for unlocking capital, and ensuring fair access to financial resources for mining communities worldwide. From remote villages to global opportunities, [LAXMINT](#) is redefining value creation with underground assets,” said Christopher Greenwood, Chief Strategy Officer at LAXMINT. “We’re building a new system where early investors aren’t left to crude speculation—they participate in verified production and are rewarded with real gold or stable digital assets.”

Mining operations will commence in Africa, with gold production targeted to begin within six months. The first joint venture will pilot the technology infrastructure on the ground, capturing production data, enabling full supply chain traceability, and integrating oracles for environmental and social responsibility (CSR) metrics, including zero mercury usage, local employment, and deforestation.

“LAXMINT aims to empower the artisanal gold mining communities to enhance their production, upgrade their living standards, and bring them to the forefront of society, securing a prosperous future. More than a traditional gold industry investment — we are developing digital infrastructure for the future gold standards of the world,” said Thanveer Ummer, CEO of LAXMINT. “Our system will give governments and communities tools to monitor national gold production, exports, ensure compliance, and create inclusive financial systems that reward ethical operations.”

The initiative aligns with growing global demand for Real World Assets (RWAs), providing exposure to gold as a yield-generating, verifiable asset. [LAXMINT's](#) strategic roadmap includes token issuance, RWA gold-pegged instruments, ESG data integration, and listing plans by Q1 2026.

With Africa as its launchpad, LAXMINT is poised to scale globally, offering a clear path for impact-driven investors, sustainable development practitioners, and Web3 innovators to co-create the next generation of ethical mining finance.

LAXMINT is a hybrid technology development and investment initiative led by Prosperium Ltd., based in St. Lucia. Focused on transforming the Artisanal Small-scale Gold Mining (ASGM) sector, LAXMINT leverages Real World Asset (RWA) infrastructure to power ethical mining, transparent gold production, and real-world asset tracking. Through strategic joint ventures, ESG monitoring, and community empowerment, LAXMINT aims to unlock sustainable value from beneath the ground to the global market.

LAXMINT Launches Real World Asset (RWA) based Gold Mining Initiative on 23rd May

Transform underground assets for inclusive empowerment. Secure the future with Laxmint's next-generation hyper connected solutions. Experience the future of hyper-connected networks with Laxmint. We are pioneering a safer, smarter digital world.

LAXMINT Launches Real World Asset (RWA) based Gold Mining Initiative, Unlocking Capital and Employment for Artisanal Mining Communities Worldwide

Castries, St. Lucia - 23-May-2025 - LAXMINT, a hybrid technology and investment company, has officially launched with a mission to unlock the Artisanal and Small-scale Gold Mining (ASGM) sector through transparent, ethical, and scalable working capital solutions. Combining Future Technologies like Artificial Intelligence, Machine Learning, Digital Assets together with Real World Assets (RWA), and ESG tracking, [LAXMINT](https://www.laxmint.io) aims to bridge real gold mining production and digital assets capital markets—creating an entirely new category of investable assets, leveraging liquidity.

Artisanal Small-Scale Gold Mining contributes over 20% of the world's gold production, yet remains critically ignored, particularly lacking access to working capital, finance, machinery, technology and environmental accountability.

[LAXMINT](https://www.laxmint.io) offers a complete solution for these problems by providing access to working capital, modern finance, eco-friendly equipment & machinery, and smart technologies to Artisanal Small-Scale Gold Miners.

“LAXMINT believes in transforming Real World Assets (RWAs) for unlocking capital, and ensuring fair access to financial resources for mining communities worldwide. From remote villages to global opportunities, [LAXMINT](https://www.laxmint.io) is redefining value creation with underground assets,” said Christopher Greenwood, Chief Strategy Officer at LAXMINT. “We’re building a new system where early investors aren’t left to crude speculation—they participate in verified production and are rewarded with real gold or stable digital assets.”

Mining operations will commence in Africa, with gold production targeted to begin within six months. The first joint venture will pilot the technology infrastructure on the ground, capturing production data, enabling full supply chain traceability, and integrating oracles for environmental and social responsibility (CSR) metrics, including zero mercury usage, local employment, and deforestation.

“LAXMINT aims to empower the artisanal gold mining communities to enhance their production, upgrade their living standards, and bring them to the forefront of society, securing a prosperous future. More than a traditional gold industry investment – we are developing digital infrastructure for the future gold standards of the world,” said Thanveer Ummer, CEO of LAXMINT. “Our system will give governments and communities tools to monitor national gold production, exports, ensure compliance, and create inclusive financial systems that reward ethical operations.”

The initiative aligns with growing global demand for Real World Assets (RWAs), providing exposure to gold as a yield-generating, verifiable asset. [LAXMINT's](#) strategic roadmap includes token issuance, RWA gold-pegged instruments, ESG data integration, and listing plans by Q1 2026.

With Africa as its launchpad, LAXMINT is poised to scale globally, offering a clear path for impact-driven investors, sustainable development practitioners, and Web3 innovators to co-create the next generation of ethical mining finance.

LAXMINT is a hybrid technology development and investment initiative led by Prosperium Ltd., based in St. Lucia. Focused on transforming the Artisanal Small-scale Gold Mining (ASGM) sector, LAXMINT leverages Real World Asset (RWA) infrastructure to power ethical mining, transparent gold production, and real-world asset tracking. Through strategic joint ventures, ESG monitoring, and community empowerment, LAXMINT aims to unlock sustainable value from beneath the ground to the global market.
